WHY HE DOES IT.

Druggist W. S. Lloyd Gives Reasons for Selling at Half-Price.

It isn't often that I have faith enough in the medicines put up by other people to be willing to offer to refund the money if it does not cure, said druggist W. S. Lloyd to one of his many customers, "but I am glad to sell Dr. Howard's specific for the cure of constipation and dyspepsia on that plan."

"The Dr. Howard Co., in order to get a quick introductory sale authorized me to sell the regular fifty cent bottle of their specific for half-price, 25 cents, and although I have sold a lot of it, and guaranteed every package, not one has been brought back as unsatisfactory."

"I am still selling the specific at half-price, although I cannot tell how long I shall be able to do so. Any person who is subject to constipation, sick headache, dizziness, liver trouble, indigestion or a general played out condition, ought to take advantage of this opportunity. If the specific does not cure them, they can come right back to my store, and I will cheerfully refund their money."

HUMAN RACE NOT DYING OUT

Population Decreases in One Country While It Makes Great Gains in Another.

Much is made of the fact that the population of France is decreasing. Is it because we all shall be losers, if the death rate of that country continues to exceed the birth rate? Or is it because the rest of the world is especially fond of the French? Or is it because we fear that some day the population of the earth will be so small that human beings will not be numerous enough to combat wild beasts and other evils which are successfully combated today?

Whatever may be the feelings with which the rest of mankind beholds the steady decline of the French people in numbers, the fact is there are still people enough on this planet; for while the population of France has increased only 3,000,000 since 1851, that of Germany has increased 30,000,000.

Would it not be better, then, to look on both sides of the population picture? It also might be well to consider this fact: If the French people have done their turn on this planet, the planet may have to reconcile itself to seeing them disappear or mingle with some other race.

SURE.

Mrs. Benton Holme—In her new set of china she has one hundred and fifty pieces.

Mrs. Knowsitt—It's in a good many more pieces today. She just hired a new cook a couple of days ago.

WHAT HE WISHED.

Gausler (who meets dyspeptic Weigler coming from dairy restaurant, where he has been breakfasting on oatmeal)—Say, old man, you're looking miserable—what's the trouble?

Weigler—Oh, I'm regretting that I'm not a horse.

Gausler—Regretting that you're not a horse?

Weigler—Yes; a horse is happy when he's feeling his oats.

TAKES IT SERIOUSLY.

"I suppose you know Borem," remarked Wiseman.

"Only just well enough to say 'How are you?'" replied Markley.

"Well, don't do it."

"Don't do what?"

"Don't say 'How are you?' for if you do he'll hold you up for a quarter of an hour or so and tell you."

Catholic Standard and Times.

THE ONLY WAY.

"So," said the good man, "you intend to be a doctor when you grow up?"

"Yep," Tommy replied.

"And why have you decided upon the medical profession?"

"Well, a doctor seems to be the only man that keeps right on getting paid whether his work is satisfactory or not."

DEER IN MAINE.

Maine deer are increasing and one reason for their great numbers this summer is because they are able to obtain excellent feed from young shrubs in the burnt districts.

Last winter was remarkably mild in northern Maine. The deer wandered about at will, obtained plenty of food, and so were not killed off by disease.

USUAL ATTRACTIONS.

"I spent my summer in the Yellowstone. The geysers are wonderful. It's a great resort."

"The Yellowstone may be wonderful, but it will never be a resort until they have a boardwalk and a geyser of orangeade."—Louisville Courier-Journal.
